DIVIDEND ASSETS CAPITAL INSTITUTIONAL – INVESTMENT STRATEGIES FOR RISING INCOME & GROWTH 12/31/22

AN INVESTMENT APPROACH THAT MAKES SENSE

CONSISTENT AND SIGNIFICANT RISING DIVIDENDS provide potential opportunities for increasing income to enhance capital appreciation and help protect purchasing power.

STRONG BRANDS, GLOBAL EXPOSURE AND ESSENTIAL PRODUCTS are hallmarks of companies with the potential to consistently grow future earnings.

DAC SEEKS INVESTMENTS IN HIGH-QUALITY U.S. AND INTERNATIONAL COMPANIES WITH A HISTORY OF SIGNIFICANT, CONSISTENT DIVIDEND INCREASES THAT PROVIDE POTENTIAL OPPORTUNITIES FOR ABOVE-AVERAGE CAPITAL APPRECIATION WITH ATTRACTIVE, RISING INCOME.

TARGETING ESSENTIAL PRODUCTS AND SERVICES

Favored companies in a growing global economy provide or guide essential products and services, such as consumer goods and services, energy, healthcare, technology, materials, and industrials.

FOCUSED, RESEARCH-DRIVEN INVESTMENT APPROACH

Companies must pass our rigid screen and demonstrate:

- Dividends that have risen consistently and significantly, year after year, for a decade or more.
- Consistent growth of earnings that we believe provide the ability to pay and grow dividends.

Proprietary research, complemented by Wall Street analyses and conversations with management, evaluates:

- Company growth rates and financial strength
- Consistent earnings growth across economic cycles
- Evidence of strong leadership
- Growing, global brands and exposure
- Transparency

- Since 1926, dividends have accounted for approximately one-third of the total return of the stock market, while capital appreciation contributed two-thirds.¹
- Dividend yield, as a component of total return, is historically less volatile than price appreciation.¹
- We focus on companies that increase their dividends, not absolute dividend yield.¹

EQUITY STRATEGY for Institutional Clients

Investments in our Equity Portfolios are selected across many industries and sectors. While the majority are large companies, we also offer diversification among small, midsize and international companies. Each portfolio is constructed to help meet your objectives, which may include asset growth, greater income, tax considerations and risk tolerance.

**HISTORICAL PERFORMANCE RETURNS. Past performance is not indicative of future results. The U.S. Dollar is the currency used to express performance. Returns are presented gross and net of management fees and include the reinvestment of all income.

Gross of fee returns are reduced by actual trading costs incurred. Net of fee returns are reduced by trading costs and the composite's model (highest) investment management fee. Results are based on fully discretionary accounts under management, including those accounts no longer with the Firm. Composite and benchmark performance is presented net of foreign withholding taxes on dividends, interest income, and capital gains. All-inclusive/Bundled/Wrap fee accounts pay a fee based on a percentage of assets under management. Other than brokerage commissions this fee includes investment management, portfolio monitoring, consulting services, and in some cases, custodial services. DAC receives a portion of the total wrap fee paid to the wrap program sponsor for its portfolio management services. Wrap/Bundled fee accounts make up 60% of the composite for all periods shown. Wrap fee schedules are provided by independent wrap sponsors and are available upon request from the respective wrap sponsor. Net of fee performance was calculated using a model fee of 3.00%.
